1/ Includes an allowance for quantities of unredeemed loans and purchase agreement deliveries valued at the average loan rate per bushel, by States.

2/ The 1950 price and value figures are preliminary.

.The crop marketing season is June 1 to May 31 for Kans., N.C., S.C., Ga., Tonno, Ala., Miss., Ark., Okla., Tex., N.Mox., Ariz., and Calif.; July 1 to June 30 for all other States. Value of "all wheat" differs slightly from sum of wheat by kinds due to rounding of "all wheat" price. The values shown are for the marketing season or crop year and should not be confused with calendar year income.

Includes an allowance for quantities of unredeemed loans and purchase agreement deliveries valued at the average loan rate per 100 pounds, by States.

2/ Price and value apply only to the production of cleaned beans or peas.

The 1950 price and value figures are preliminary.

For dry edible beans, the crop marketing season is September 1 to August 31; for dry field peas, July 1 to June 30; for peanuts, Nov. 1 to Oct. 31 for the Va.—Car. area, Sept. 1 to Aug. 31 for the S. E. area, and Aug. 1 to July 31 for the S.W. area. The values shown are for the marketing season or crop year and should not be confused with calendar year income.

<sup>1/</sup> The 1950 price and value figures are preliminary.
2/ December 1 price.

The crop marketing season for broomcorn is Aug. 1 to July 31 for all States except Texas, which is July 1 to June 30. The values shown are for the marketing season or crop year and should not be confused with calendar year income.

<sup>1949</sup> season average prices were used in evaluating production of those types for which no sales of the 1950 crop were reported prior to December 1.

1/ Estimates for each State cover the entire crop, whether commercial or noncommercial, early or late. 2/ The 1950 price and value figures are preliminary. 3/ Production for 1950 in Nebraska and California includes some quantities of commercial early potatoes not marketed and excluded in computing value. 4/ List of early States excludes California. Average price and total value of all California potatoes shown under surplus late States.

For potatoes, the beginning of the crop marketing season varies between States from December 1 preceding the year shown for Florida and Texas to August 1 of the year shown for certain northern States. The marketing season comprises 12 months in all States except California, which has a 14 month season beginning April 1 of the year shown. For sweetpotatoes, the crop marketing season is June 1 to May 31 in Ga., Fla., and Ala.; Aug. 1 to July 31 in N. J., Ind., Ill., Iowa, Mo., Ky., and Ark; and July 1 to June 30 in all other States. The values shown are for the crop years and should not be confused with calendar year incore.
